AUSTRALIA

Australia, formally the Commonwealth of Australia, is a country and sovereign state in the southern hemisphere, located in Oceania. Its capital city is Canberra, and its largest city is Sydney.

Australia is the sixth biggest country in the world. 25 million people live in Australia, and about 85% of them live near the east coast. The country is divided up into six states and two territories, and more than half of Australia's population lives in and around the cities of Sydney, Melbourne, Brisbane, Perth and Adelaide. The first people to live in the country were the Indigenous Australians.

Australia is known for its mining (coal, iron, gold, diamonds and crystals), its production of wool, and as the world's largest producer of bauxite. Its emblem is a flower called the golden wattle. Australia is also known for its animals and rich wildlife. The national symbols of Australia are the kangaroo and the golden wattle. Scientifically, perhaps even more important are its two monotreme mammals: the platypus and the echidna.
